Surveyor General.

HONGKONG, SATURDAY, AUGUST 12, 1882. It will be noted from the proceedings of the Council meeting, that the Tramway Ordinance is still under consideration. The measure, it may be remembered, . has already been approved by Mr Price, the

The vote to Major Palmer, R.E., for a report in connection with the proposed Observatory-which sum we are glad to see has been sanctioned, as it is well-spent money-recalls the peculiar manner in which the item was put through the Finance Committee early this year. It was fairly well known at the time that Governor Hennessy had kept back a despatch bearing on the subject of the new Observatory | pleted. at the very time when the Finance Committee were called upon to pass the vote for Major Palmer's services. And now we learn that the Hon. F. B. Johnson addressed the Secretary of State on the subject, while he intimated that he would Porte had intimated its readiness to conoppose the vote passed under such circum- clude a military convention. Noon.—Kwangtung leaves for Coast stances. Although H.E. the Administrator sought in a very fair spirit to explain away the circumstance by saying that Sir John Hennessy may have fancied that the instructions conveyed in the despatch which was kept back referred to the building of the Observatory, still the explanation was not by any means satisfactory. At all events, we think that Mr Johnson is only acting as the faithful representative of the community in protesting, as he seems to have done, against such irregularities as the suppression of despatches under any circumstances whatever. It must be admitted, however, that irregularities of this nature, which are altogether unnecessary in any government that is honest and straightforward, are the exception in Britain's administration of her Colonial pos-

THE letter read at the Legislative Council 3 p.m.-Meeting of Shareholders of The meeting yesterday (11th), in which the Hon. J. M. Governor Hennessy's despatch derogatory one of Governor Hennessy's failings was a persistent habit of saddling unpleasant responsibility upon his subordinates, the tone and substance of the letter are not at all surprising. It was a significant fact, and one illustrating the changed aspect of things Governmental, that no remark was made upon the letter in Council. Constituted as he was and is, Governor Hennessy could not possibly have passed such an portunity as this of "going for" his predecessor. One of the most notable features about the proceedings yesterday was, that nobody was attacked, and there was no suggestion of Donnybrook fair from beginning

In commenting upon the admirable manner

in which the Estimates have this year been

cially to the plain and unvarnished 'Minute" with which the Administrator had accompanied the usual document. There are, however, other new features which deserve attention, and not least is a document, entitled "Notes accompanying Draft Estimates for 1883," which supplement and explain many of the items referred to. An endeavour is made in this document to make everything clear, and to treat the public in a spirit more akin to shareholders in a commercial company than the tax-paying community has hitherto been accustomed; and it cannot but be admitted, even by the most red-tape official extant, that this is the proper course to adopt. The old style of mysterious official action, especially in money matters, is dying out, and not a day too soon. Mystery and over-reticence, especially under certain conditions, are apt to beget mistrust, and sometimes the mistrust is amply. served and well grounded. One amongst many of the explanatory Notes appended to the various items may be given as an illustration. Concerning a proposed increase of salaries for assistant. firm of Maclaine, Fraser & Co., Singapore. turnkeys in Gaol, for which petitions had teen presented, the Administrator asks, "What is meant by the statement that these mon are not on the same footing as Chinese turnkeys ?"- To which is given the following reply, signed by "Geo. Hayward, Acting Superintendent Victoria Gael:"-"When Sir J. Pope Hennessy appointed the four Chinese Turnkeys to the Gaol Staff in 1877, their salaries were fixed at \$36 per The Manufactory is under direct and mensem, although at the time of their appointment, several Assistant Turnkeys had served for 6 years and were only drawing salaries of \$25 and \$30 per mensem : . consequently these latter have felt aggrieved and ill-med ever since." From which it would appear that Chinese turnkeys have been for five years receiving a larger salary than Europeans who had been, in 1877, five or six years in the service. The Europeans had certainly reasonable ground for feeling aggrieved. But what we purpose thiefly to note is this, that under previous administrations this bit of information-together with much morewould not have been given to the public, The public are therefore to be congratulated upon this improved system of publicity.

Each of the Court officials, however, will be granted a short leave of absence. The Chief Justice will hear no new cases during the term, unless by special arrangement.

Inspector Gray, who has been abou fifteen years in the Police Force, and who acted as Deputy Superintendent during the late absence of Mr W. M. Deane, goes home on leave by the Bellerophon to-morrow. The Chinese members of the Force have taken the opportunity to present the Inspector with a handsome flag.

WE understand that H. E. the Administrator has been pleased to approve of a recommendation made to him some short time ago, that the Chinese and Sikh policemen who are on duty each night for eight hours should receive one night off in every fourteen. This privilege will be much appreciated by the men.

THE first of a new style of jinricksha, which

it was decided a short time ago to gradually introduce into the Colony in place of the present class of vehicles, has just been constructed, and is already in use. The new machino is expected to be much more suited to the traffic, and is an improvement on the old in several respects. Its dimensions are: diameter of wheel, 3 ft. 6 in., being two inches less than the diameter of the wheels at present in use; breadth between the wheels 3 ft., about a foot less than in the old machines; width of seat 21 inches, instead of from 34 to 36 as at present; height of cover from seat 43 inches; length from seat to the front foot board 23 inches, five or six inches more than in the old ones; and breadth of tire one inch, in place of and 4 of an inch as is the case with those in use. The broader tire will cause the work of pulling to be slightly heavier, but as there can be no possibility of there being more than one The Duke of Connaught has arrived at occupant at a time, the coolies work will be easier than it frequently is at present. The back of the seat is higher, and gives more comfort than those of the present vehicles. The springs are of the latest and most approved description, and the whole machine is preferable to the one now in use. It will be some time before all the old-style vehicles are cleared off the streets, but as no new machine, unless similarly constructed to the one described, will be granted a license, we may expect to see the old, dilapidated machines disappear very rapidly.

Chan Asam then returned to the Colony, and made the charge against Tam Ping Kai, who, on hearing that such a charge had been lodged against him, immediately gave himself up to the Police. The case was not proceeded with yesterday, but was adjourned until Monday, bail being allowed in two sureties of 8500 each. Mr Mossop, of Messrs Dennys and Mossop, appeared for the prosecution; and Mr Holmes, of Mesars Stephens and

Holmes, acted for the defendant.

YESTERDAY evening a performance for the benefit of Mr R. D'Orsay Ogden was given in the Theatre Royal. The audience was , fairly numerous, and might have been much larger had the weather been more propitious. The performance opened with an overture by the band of the Buffs, after which Buckstone's well-known comedicata, _" Jealousy" - was presented. The beneficiare filled the role of Pettibone, the loving but jealous husband. Mr Ogden acted throughout with great spirit, making the most of every point both in dialogue and situation, and though at times his manner was more energetic than necessary, he gave a fairly good interpretation the character. Mrs Ogden represented the loving wife in a very sprightly way, and with a verve which showed that she is more at home in light comedy than in heavy pieces. Mr Russell Schmidt acted as the deceitful friend (Fathom) of the husband, who, by trading on his old acquaintance with his friend's wife, endeavours to wean her affections from her husband, and thus raises the "storm of indignation" in the latter, which he struggled so manfully paper of about 1,800 men, of which 600 are only gone for payment, was fined \$1, or to suppress, but without avail. Schmidt was rather stiff in some of the passages with Mrs Ogden. A lady amatour as Mary did the little she had a round of applause from the audience which showed its appreciation several times in a hearty manner, and scomed to be highly amused. The next item was fantosic of Irish airs by the Band, in which the members individually and collectively mandant-General,' and Allowance 'Comproved themselves excellent musicians. Bandmaster Quinn was called before the curtain at the conclusion of the selection, and received a round of applause. Mr Russell Schmidt then gave the refrain, "The Heathen Chines," which caused some merriment, and for the rendering of which he was recalled. "Ye titled Votary usual vouchers to be submitted from time fendants were all hawkers of fruit, and had of Appollo" followed, and the characters to time to the paymaster-general." THE Cup presented to the Officers of the Inniskillings by the Stewards and members of the Hongkong Race Fund, has now reached its destination and the following letter in acknowledgment of the handsome souvenir has been received by Mr H. J. H. Tripp. The Cup is of silver, and rests on a black chony stand, a silver plate on which boars the following inscription! "Presented to the Officers of the 1st battalion Royal Inniskilling Fusiliers by the Stewards and members of the Hongkong Race Fund as a souvenir of the Inniskillings, stay in Hongkong." On the Cup itself are several Chinese characters laudatory of the valour of the Inniskillings :-

"To H. J. H. Tripp, Esq., Clerk of the Course, Hongkong. Singapore, 2nd Aug. 1882.

Sir,-In the name of the officers, 1st Battalion Royal Inniskilling Fusiliers, beg you will convey to the Stewards and Members of the Hongkong Race Fund, our most grateful thanks for the very handsome Cup which they have presented to us, and also for the flattering encomium contained in the inscription thereon. We heartily reciprocate their kind wishes for success in our future career, and trust that the Hongkong Race Meetings may always be as enlovable as the Inniskillings found them during their sojourn there. The Cup will ever be treasured by us as a memento of the kindly feelings which made our stay in the island so pleasant.

I was also informed that they had been threatened that their buildings would be set on fire, to which they were determined to retaliate by setting fire to the Arab village in fifteen different places.

About 10,000 Arabs were collected as Damietta, a town about thirty miles from Port Said. 'The gathering of such a large number is not without a definite purpose. and the general impression is that they wil swoop down and sack Port Said; if such an event should take place the only safe step for the Europeans will be to seek refuge in the various ships in the harbour. The water-supply of Port Said being brought along the Canal from Ismailia is another element of danger, for in the event of the pipes being cut the supply would be completely stopped, and as there is no condensing apparatus, the condition of the people would be miserable indeed; their

only source of supply would be the vessels sailed in the larbour, which could condense sufficient with economy. Three hoats filled with stones had been lying in the Canal for several weeks, and no one seemed to know for what they were intended; but the reasonable surmise is that they are meant to be sunk, so as to effectually block the There is also a current report that a quantity of dynamite is placed in the banks of the Canal in such a position that on explosion both the banks and the bed of the Canal would be undermined, so as to take several weeks before the Canal would

be again navigable. Mr Gay, the war correspondent of the Daily Telegraph, was with me from Port Said to Suez. He had just come from Alexandria and Cairo, and said there were only two Europeans in Cairo, who were determined, with a conrage which cannot be too highly praised, to remain there; but it is to be feared that they will be massacred in a week or so unless Arabi Pasha should have them locked up out of harm's way, which under the circumstances is an event which would be the best for

The Europeans at Sucz are in a great state of alarm, and their number being so their best course will be to take refuge in some of the ships lying there in the event of a rising of the Arabs.

INDIA AND THE SUEZ CANAL. The Calcutta correspondent of The Times telegraphs the following, which is equally

applicable to the trade of the Far East :-The subject of the disturbed state of Ireland has considerably paled in importance in the face of the momentous Indian interests at stake in the preservation of the Sucz Canal, and so securing for India, free from that possibility of interruption, her direct trade route and shortest highway to Europe. As compared with the Suez Canal, the Cape route means an increase in distance of nearly 5,000 miles. A temporary in its nature, is looked upon in India as a possible political calamity of incalculable dimensions, and public opinion fully justifies the assertion that, if permitted. India is quite prepared to exert her large military resources in resisting to the communications with Europe through the Canal. From recently published statistics it appears that out of 1,593 ships, aggregating 3,291,525 tons, which passed through the Canal last year, 1,267 ships, aggregat ing 2,629,885 tons, were English. These figures afford a startling indication of the paragiount and prependerating interest which Indian trade claims to exert in the ultimate settlement of the Egyptian crisis. The Indian Government is keenly alive to Indian interests in the matter, and is anxiously waiting on English policy. Orders have been received from England directing the military authorities to be in readiness to despatch an expeditionary force to Egypt to co-operate with an expeditionary force

Mr Astley: Singapore is a free port, and we have no reason to doubt that any neessary formalities were complied with by the Spanish steamer Leon XIII. The action of the Court gave the authorities no ground for detaining the vessel, as the process issued was not against the ship, but against

worthy, writing from New York, June 22, says :- Michael Davitt, in his recent address to the Irishmen of New York the day after he landed here, told them, among other things, that it was their duty to repudiate outrage and assassination as a means of redressing Irish wrongs. There is still an influential Irish clique, whose ramifications extend through the chief cities of the States, who are devoting every energy to the encouragement of what may be called the dynamite policy. This extreme detestable faction, who are bent on embroiling the States in the Irish quarrel by making it the base for hostile movements against English persons and property, needs close watching. The dynamite movement in its present phase began nearly two years ago its active operations, though contemplated and practically sketched out earlier. My informant says that men are engaged in forwarding it in every principal city of the States, though outs de New York their chief abiding place is Chicago. The chief managers of the movement appear to be triumvirate, composed of Dr Shine Snearman, and Byrne, with some lesser lights, but the leader is Dr Shine, a rockless, bold, and, in some respects, influential New York falls upon it, endeavours to get out. The conspirators have little definite object excepting to harass England at every valuerable point, to destroy the lives of th officials who were most instrumental in oppressing Ireland, and to show the English generally by the destruction of property and ablic buildings and works that it was to their interest to make peace with Ireland on the best terms. The dynamite party he said, permeated the Land League, and was aided by many on both sides of the ocean who were high in that body. They had a regular system of correspondence in cypher by cable neross the Atlantic with friends in Ireland. The poor surviving animal was apparently dejected at having been forced to commit this deed, for the corpse of the tigor, as if by way of making some amends, was several times licked by the buffalo. This combat lasted fully two hours. Afterwards began the rampokken or tiger fight. On the plain alongside the Kraton stood Javanese, armed with spears about fifteen to eighteen feet long, drawn up in rows one behind the other, forming altogether an extraordinarily A correspondent of The Times, whom that large square. THEY, sho was phenomenally slender, every square inch of clothes exposed was precisely in the right place, and she was fragilely, expressionlessly, a doll. It seemed to me that a good hug would break her all to pieces, so manifestly was she made up and glued together. Her own hair was completely covered by an impossible orangecoloured wig, coming down to her cycbrows in front and to the nape of her neck behind, and held in place by a bonnot made of open meshes of lace and beads. Her waist was a more span; and that, as well as her entire figure from the neck to the point of her contact with the seat, was an unwrinkled skin-tight enclosure of Jerseywoven silk. Not a scrap of trimming was on her corsage, and a row of tiny buttons down the back revealed how she had got into it. Well down on her hips a sash covered the joining of the skirt. Her gloves reached to her elbows. She was a hideously pretty creature—daintily pretty in form and feature, and hideous in paint. Her face was heavily coated with white. red, and black paint, exactly as though prepared for the stage; and she was acting all the while, instead of taking a rest while out of the caste. Her poses were artful: her eyes were constantly raised above the point at which she might be supposed to be looking in order to keep them very wide open; her changes of facial expression were as bright and rapid as possible with the features partially transfixed by the pigments, and the little gestures of her hands were triumphs of skill. But, deary me. how charming she wasn't; and how charm-

AN OLD, OLD STORY. Of all the bonny birds which spring Oalls forth, with lark and plover, The aweetest wake in beds of thyme, And fragrant fields of clover!

They mind use of a sunny spot Where maple boughs bent over, And shook their laughing shadows down, To dance among the clover!

Twas there, with drowsy hum, the bees Delighted, loved to hover, Or droning through the perfumed sir, Fell fast asleep in clover!

Not far away a tiny brook Crapt out from under cover And, glancing slyly, went its way, With songs for thyme and clover!

Till, further on, the waters grew

Into a dashing rover. Who woodd the lilies, tall and fair, As once he wooed the clover! Ah! bonny brook and scented thyme.

A little maid and lover Dreamed out the sweetest dreams of life With you, amid the clover !"

Sad years have come and gone since then, And "love's young dream" is over. The brook still woos the lilies fair. But faded is the clover!

Those several spurs of neighbourhood, Church fellow membership, and blood ran on like a mad horse in the Corse at the Carnival, with the spurs rattling on its flanks, and very soon began to get furiously unmanageable.

Now Miss Athanasia Nutkins was a spinster sister of the Elder, and thus sister-inlaw by courtesy of the Deacon. And having no one to cherish, no one to love, she took an immense delight in baiting the two brothers-in-law, as much delight as a Spanish lady takes in the conflict between the bull and the toreador, or an Ashantee was man in the beheading of her two favourite brothers.

Miss Athanasia Nutkins was a lady of about fifty summers and an equal number of winters, and in whose nature the winters had got the better of the summers in a proportion of about 3: 1. She was glacial and Boreal; she nipped like a frost and cut like the east wind. The end of her nose always had a wintry appearance, as if she had been rubbing it against an iceberg, and her hands were icy in summer and frost-bitten in winter, wherefore she enveloped them in black mittens. The Lord preserve me from an old maid in black mittens! She did not love the Deacon—now. In fight it out,

But Bailey preferred the chubbier, warmer graces of Miss Philo. mone Curtiss, and the bleak winter of dis. content with Bailey and all mankind settled down for ever on the soul of Athanasia Nutkins. She hated her brother for marrying the Deacon's sister, and, having nothing better to do, it was her amusement to keep the two families in a state of war, or at best of veiled hostility. Sometimes commonsense would get the better hand and words. She breathed them into the ears of Nutkins or his wife, and reported

The net result was that at the next County Court, when old Judge Masefield came down, there were eleven actions entered on the list between Nutkins and Bailey or Bailey and Nutkins. All the best counsel on the circuit were engaged in these cases. For the first time in her life, Miss Athanasia's face were a semblance of perfect content.

LALOR'S PHOSPHODYNE Discovered and so named, A.D. 1862, by R. D. Lalor, M.D.

TO RESIDENTS IN INDIA, CHINA, AND THE COLONIES, IT WILL PROVE INVALUABLE AS A RELIABLE LIVER TONIC AND A VITALISING RESTORATIVE.

DR. LALOR'S PHOSPHODYNE

Is a Pure Solution of Phosphorus, pleasant in flavour and appearance, being a perfectly Bright Liquor, combined with Vegetable Alkaloids, possessing marvellous, Curative Properties, the Wonder of Modern Chemistry, free from all Dangerously Active Drugs; innocent in its action, and pronounced by the Highest Medical Authority to be unequalled for its power in replexishing and olaborating the Vitality of the Body; by its supplying all the essential Vitalising constituents of the Blood, Brain, and Nerve Substance; and for developing all the Powers and Functions of the System to the highest degree, thereby checking all Wasting of the Vital Fluid, and the more Exhausting Wear and Tear of Life resulting from Over-taxed Energies of Body or Mind maintaining that Buoyant Energy of the Brain, Nervous, and Muscular Systems, which renders the Mind Cheerful, Happy, Brilliant, and Energetical

DR LALOR'S PHOSPHODYNE

Surpasses all the known therapeutic agents of the present age, as The Unity Safe, Reliable and Permanent Cure For all Derangements of the Nervous and Blood Systems.

Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Nervous Debility in all its Stages, Softening of the Brain, Sleeplessness, Harassing Dreams. Paralysis, Pains in the Back, Affections of the Kidneys, Urinary Deposits, &c. Asthma, Scrofula, and Skin Diseases, Wasting or Withering of the Muscles, Impure and Impoverished Blood, Premature Decay of Vital Power and all morbid conditions of the system dependent upon the deficiency of the Vital Forces arising from whatever cause.

THE ACTION OF DR. LALOR'S PHOSPHODYNE

Is Two-fold and Specific; on the one hand increasing the principle which Constitutes Norvous Energy; and, on the other, the Most Powerful Blood and Fleshgenerating Agent known; therefore a Marvellous Medicine for Renovating Impaired and Broken-down or Exhausted Constitutions, making the recipient as Active, Sprightly and Vigorous as if nature had never been retarded or debilitated.

AN ALARMING FACT

Tens of Thousands of the people of CHINA are to-day dying from the effects of Brain Disease, Dyspepsia or Disordered Liver, which Poison the Blood and sap the springs of life. The results of these diseases upon the masses of intelligent and valuable people is most alarming, making Life actually a burden instead of enjoyment and usefulness, as it ought to be. There is not any good reason for this, seeing the united testimony of a great number of sufferers establish that DR. LALOR'S PHOSPHODYNE is superior to any Medicine yet discovered for the Cure of Dyspepsia and Liver Complaints in all their varied forms. The promptness and certainty of its action is such that when the fire of life seems to be dying out in the system, and the mind sympathising with the body, is reduced almost to a state of imbecility, this mighty PHOSPHORIC Restorative, by a few doses, seems as it were to lift the sufferer out of the slough of despond, and recruit and reinvigorate both the frame and the intellect.

TWENTY YEARS' PUBLIC TEST Prove these facts unimpeachable, being fully borne out by thousands of testimonials from every nation and country in the world, freely offered by distinguished families, private persons, military, naval, scientific, and professional men who are well known. and who have experienced from its use all the benefits here indicated. DR. LALOR'S PHOSPHODYNE is sold in Bottles at 4s. 6d. and 11s., by all Export.

Wholesale and Retail Medicine Vendors throughout the World. The large and continually Increasing Sale of Dr. Lalor's Phosphodyne, since its introduction in 1872, has led some unscrupulous persons to foist Bad Imitations on the Public Abroad. Read the following Notice:—

IMPORTANT NOTICE.—NONE IS GENUINE UNLESS the name Dr. Lalor's Phosphodyne, London, England, is blown in the Glass of each Bottle, and every Bottle bears the British Government Stamp, with the words Dr. LALOR'S PHOS-PHODYNE, London, England, Engraved thereon by Order of Her Majesty's Honourable Commissioners; IF NOT, IT IS A FORGERY, and you have been imposed on by a worthless Imitation.

THE CHINA REVIEW.

PUBLISHED BI-MONTHLY. TENTH YEAR.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of "Notes and Queries on China and Japan," has reached its Tenth Volume. The Review discusses those topics which are uppermost in the minds of students of the "Far East" and minds of students of the "Far East" and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibot, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally useful.

usoful. The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to "Editor, China Review, care of China Mail Office.

lopics.
Original contributions in Chinese, Latin, or any of the Modern Languages are received. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bedies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Brotschneider, Hirth, and Hance, Professor Legge, and Messrs Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, and Piton,—all well-known names, indicative of sound scholarship and thorough mastery of their subject. usual, but the few articles are very interesting. The opening paper by Mr Herbert M. A. Parker's "Short Journeys in Szechuen" W are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number."—H.K. Daily Press.

Trubner's Oriental Record contains the

following notice of the China Review:-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services; the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cuitivated, and who are neverally represented in the first mumber of the Review by papers highly creditable to their respective ait hors.

Some translations from Chinese Royels and plays are marked by both accuracy and freshness of style; and an account of the car ser of the Chinese poet-statesman of the eld wenth century, Su Tung-p'o, by Mr. E. C. Bowrs, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to Chinese and the East, which will be a useful feeture of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are depended to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary real to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support recessary to insure Glaus its continuance. Customs' corps, and the missionary body,

OPINIONS OF THE PRESS. "All our learned societies should subscribe to this scholarly and enterprising Residew."—Northern Christian Advocate (U.S.) "The China Review * * * * has an excellent table of contents."—Celestial Empire. "The Publicationalways contains subjects of interest to sojourners in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers."—Celestial Empire. "This number contains several articles of interest and value."—North-China Herald. "The present number of this periodical, * * * * opens with a review of the Foreign Trade of China during 1880. This is rather a new departure for a publication which professes to be purely literary; but considering the comparatively small circulation it enjoys at present among the commercial communities of China, we hail the innovation as likely to recommend the Review to the notice of those who take an interest in few matters beyond mercantile pursuits."—North-China Herald.
